

Eyes in the Sky-Law Enforcement Aviation

Many pilots look at vehicular traffic from aloft but very few of them care about the speed of ground vehicles - other than gaining smug satisfaction from comparing the aircraft's faster ground speed.

One type of pilot, however, monitors vehicle speed as part of his or her job. The Wisconsin State Patrol uses aircraft not only to catch speeders but in many other roles.

This program provides an interesting and educational seminar on the regional use of aviation in law enforcement. The speaker is Sergeant John Jones, an experienced pilot with the Wisconsin State Patrol.

Directions: Gran Aire, Inc.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
